HELLO THERE, OUR DREAM IS TO HELP YOU MAKE GREAT HAPPEN

Choose a career that takes you places

The apprentice will generally work with heavy gauge steel: cutting, shaping, assembling and welding. Typically, they work for heavy engineering companies involved in the production, fabrication and development of items manufactured from plate materials, generally in steel of varying thickness but can be involved with non-ferrous materials. They may also be employed in the construction industry putting together steel components for major structures - buildings, bridges etc. Another application of the skill could involve the manufacture of cooling towers, pressure...more online

LOCATION/S
Bundaberg, Gympie, Hervey Bay, Nambour

DURATION
Workplace/TAFE: Varies

Entry requirements
Apprentices and trainees complete a qualification, learning skills at work and under the...more online

Resources required
No specific resources are required to successfully complete this course.
It is recommended that students have access to a reliable internet connection to...more online

What are my payment options?
For more information about the costs associated with undertaking an apprenticeship, please give us a call.

HOW TO ENROL

Recognition of prior learning

Fast-track your way to a formal qualification by earning credit for the things you already know. Getting recognition for the skills you’ve gained from the workplace or previous learning means less study time for you, and getting the paper to prove you’re qualified a whole lot sooner.
